

For Immediate Release

Pdc Machines Congratulates NHA for 20 Years of Growth

Leading Hydrogen and Fuel Cell Exhibition and Conference held in Columbia, SC

Warminster, PA / Columbia, SC, March 11, 2009 – Pdc Machines Inc. (Pdc) congratulates the National Hydrogen Association (NHA) as it celebrates "20 Years of Growing the Hydrogen Industry". Pdc will be showcasing its product line at the NHA Conference and Hydrogen Expo, held on March 30 to April 1, 2009 at the Columbia Metropolitan Convention Center. Since 1977, Pdc has been serving the industrial gas and chemical industries by supplying hydrogen compression systems. Over the past 10 years, the company has become the leading equipment packaging and integration provider for hydrogen refueling stations.

Stimulus bill creates new opportunities

"President Obama's recent signing of the stimulus bill for economic recovery has created new opportunities for us in alternative energy technologies", says Osama Al-Qasem, Sales and Marketing Director for Pdc. "Pdc looks forward to continue working with our customers in supplying innovative and economical system solutions."

Pdc provides an extensive line of diaphragm compressors with a comprehensive assortment of options. From basic units to fully automated PLC controlled compression systems, the Warminster, PA-based company can meet the pressures and purity needed for a wide range of applications for compressing and re-cycling all types of gases including hydrogen.

Pdc also packages simple to complex skid mounted bench-scale and pilot-plant process systems. The company's extensive expertise ranges from alternative energy catalyst research, polymer and specialty chemical development to innovative process gas development research.

Tomorrow's hydrogen economy today

Attendees of the upcoming Hydrogen Expo can learn more about Pdc's capabilities by visiting their booth at the show (booth #100) and by listening to Pdc's presentation at the Hydrogen Expo Seminar Forum on April 1, 2009, 11:00am-11:30am. Kareem Afzal will talk about "Enabling Tomorrow's Hydrogen Economy Today".

Now in its 20th year, the NHA Conference and Hydrogen Expo has become the leading gathering of industry professionals committed to energy independence, climate protection and hydrogen commercialization. More than 50 organizations will showcase the latest in hydrogen and fuel cell technologies at the Expo.
